Extreme DOCK Series

LiteDOCK Extreme EXTRMLD

The Beam **LiteDOCK Extreme**, an Iridium 9575 dock, is an entry-level docking station for the Iridium 9575 handset* that can be used in various maritime, transport or fixed site applications.

**Iridium 9575 handset sold separately.*

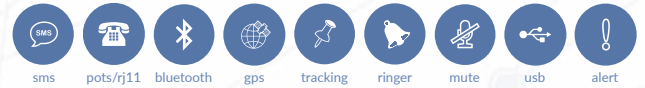

APPLICATIONS

PotsDOCK Extreme EXTRMPD

Beam's **PotsDOCK Extreme** is a compact docking station specifically designed to support RJ11, Bluetooth and tracking. PotsDOCK allows the Iridium Extreme handset* to be connected with an POTS/RJ11 interface enabling standard corded, cordless or DECT handset connection or alternatively interfaced with a PABX system presenting standard ring, busy and dial tones like a standard phone network.

**Iridium Extreme handset sold separately.*

APPLICATIONS

DriveDOCK Extreme EXTRMDD

Beam's DriveDOCK Extreme hands-free docking solution provides a high quality transport installation for the Iridium Extreme handset*. The docking station has in-built echo cancelling and full duplex technologies to provide superior voice quality and professional handsfree or privacy calls for any vehicle, boat or aircraft**.

** Iridium Extreme handset sold separately.
** Independent Aeronautical certification MUST be gained prior to installation.*

APPLICATIONS
