

Iridium GO!™ Unlimited Fair Access Policy

This Iridium GO!™ Unlimited Fair Access Policy (“Policy”) outlines acceptable use of the Iridium GO!™ Unlimited Plan (“Service”). This Policy is in addition to any restrictions or conditions contained in the Iridium Global Service Provider Agreement (the “SP Agreement”) or the Iridium Value Added Reseller Agreement (“VAR Agreement”).

All Iridium GO!™ Unlimited Plan Satellite customers (the “customer,” “you,” or “your”) and all others who use the Service must comply with this Policy. Your failure, or others’ failure, to comply with this Policy could result in the suspension or termination of your or their Service accounts (as well as clawbacks for any incentives received upon contract signature). Therefore, you should take steps to ensure that you are aware of this Policy and agree to abide by it. If you are unwilling to comply with this Policy, you must immediately stop all use of the Service and notify Iridium so that it can close your Iridium GO!™ Unlimited Plan account.

Prohibited Uses and Activities

In general, the Policy prohibits uses and activities involving the Service that interfere or diminish the fair use of the Iridium network by other subscribers, are illegal or infringe the rights of others.

The Iridium GO! Unlimited Plan is designed to enable service providers to provide additional value and more predictable usage rates for their customers. Iridium has created an application developer platform for the Iridium GO! product to encourage users of smartphones and tablets to utilize applications that are optimized for the Iridium network. These applications are configured to connect and disconnect with the Iridium network to remotely synchronize information and are strictly prohibited from enabling an always-on connection with the network that could negatively affect the available bandwidth for other Iridium subscribers. Iridium reserves the right to actively monitor usage

statistics of subscribers on the network and take proactive measures to regulate and if necessary terminate access to the Iridium network to ensure high quality network performance for all users on an ongoing basis.

Violation of this Fair Access Policy

Iridium will respond appropriately if it becomes aware of inappropriate use of the Service.

Iridium prefers to inform customers of inappropriate activities and give them a reasonable period of time in which to take corrective action. However, if the Service is used in a way that Iridium, in its sole discretion, believes violates this Policy, Iridium may take any responsive actions it deems appropriate under the circumstances with or without notice. These actions include, but are not limited to, the immediate suspension or termination of all or any portion of the Service. Neither Iridium nor its agents will have any liability for any of these responsive actions. These actions are not Iridium's exclusive remedies and Iridium may take any other legal or technical actions it deems appropriate with or without notice.

Iridium reserves the right to investigate suspected violations of this Policy.
